3422 Robinwood Drive (219) 745-1034 Fort Wayne, Indiana 46806

RESOLUTION
80-1

WHEREAS, the increasing movement of industry to multi-nation, overseas operations is causing the United States and therefore the City of Fort Wayne to move into service areas to repair and sell what is produced overseas; and,

WHEREAS, this community needs to fill the void caused by loss of jobs in the industrial field while manufacturers proceed to advance their technology to be competitive with foreign industries; and,

WHEREAS, the lack of industrial expansion in this area has caused a negative effect on the tax base needed to support the needs of our city and the proposed Apple Glen complex would generate $1.8 million of annual taxes for local government; and,

WHEREAS, the City of Fort Wayne is currently experiencing a high level of unemployment and the proposed Apple Glen complex would provide jobs during its construction; and,

WHEREAS, this complex will provide employment for approximately 5,500 persons when constructed and fully staffed, thus adding to the tax base; and,

WHEREAS, the complex is expected to serve a 55 mile radius of the City of Fort Wayne further increasing local prosperity;

NOW THEREFORE BE IT RESOLVED that the Northeast Three Rivers Central Labor Council hereby recommends that the City Council approval be granted immediately for the construction of this desperately needed complex.

Mr. Charles Westerman
City Clerk
City-County Building, Room 124
One Main Street
Fort Wayne, Indiana 46802

Dear Mr. Westerman,

After carefully scrutinizing the proposed "Appleglen" shopping mall complex, to be located at U.S. Hwy 24 West and State Road 14, the Fort Wayne Horizons Council respectfully recommends you vote in favor of any upcoming zoning decisions for that project.

We believe, considering our city's present economic decline, the "Appleglen" complex could be a much needed shot-in-the-arm for Fort Wayne. We further believe the complex will compliment rather than inhibit downtown revitalization, and that the creation of both temporary construction jobs and permanent retail jobs would be invaluable.

Please take our unanimous decision to support "Appleglen" into consideration when you ultimately decide the project's fate.

Thank you in advance for your kind consideration!

Most sincerely,

Alen G. Wyss

My name is Vivian Schmidt, and I am president of the Fort Wayne City Council. I reside in Fort Wayne at 2621 E. Maple Grove Ave.

I&M is in a favorable tax position by being able to file returns with its parent, American Electric Power. I&M is also favored by being able to take advantage of various regulations which have the effect of raising the level of reported expenses even though the expenses are not actually incurred. Further, coal mining operations owned by I&M in the state of Utah are generating profits which have not been reflected in the total I&M income used for purposes of rate making. While no one in this room wishes to deny I&M a reasonable profit, we do expect that the profits from holdings, and other financial benefits that accrue to the company be factored into the figures used to demonstrate that there is a need for a rate increase. For all of us, electricity is a necessity. It is not a frill we can disconnect should the price get too high. It is imperative that the rates requests reflect the true costs of operating, and show that the need for more income to the company is imperative.

and that the true levels of profit,

There is a proposal in the rate increase request to raise the cost of the City's bill for street lighting by 75%. Since the rest of the service area is covered by a policy to raise rates by no more than 25%, I protest this inequitable treatment of the City and its taxpayers. In recent years the City has effected a per lamp reduction in energy use through installation of more efficient equipment. The City Council has for some years encouraged street lighting installation in as many areas a possible so as to enhance traffic safety and deter street crime. Street lighting is an important and necessary part of the City's work. We must continue our efforts to increase the number of street lights while at the same time decreasing the per lamp use of energy through replacement of outdated equipment. A 75% increase, beside being an unjustly large increase, will severely affect the City's ability to provide needed security to our citizens in their neighborhoods.

Electrical energy conservation measures, as exemplified by the city's effort to use more efficient street lighting should be wholeheartedly encouraged by I&M. Strategies to reduce the demand for energy must be stressed by I&M and ways to increase the supply of energy should be given a lower priority at this point in the history of our struggle to control our energy resources. As demand for electricity lessens because of intelligent use of conservation measures, the need for new and expanded generating plants will diminish, and the enormous costs of such expansion will not have to be passed on to the public. An all-out, intensive effort by I&M to inform and assist the citizenry in reducing electrical energy consumption should begin at once. ~~[illegible]~~ Such a program could go far toward improving I&M's public image. This program ~~[illegible]~~ will be welcomed by many people who need help in making energy conservation a real

part of their lives. These people will also prefer to spend their money on measures to reduce energy loss at home rather than spending money to purchase energy to replace that which they continue to waste.

To summarize:
No one denies I&M the rightto a reasonalb e profit.

Everyone ~~asks~~, however, that I&M base its rate request on ~~the~~ its entire financial picture.

I ask that each class of consumers be treated equally, and that the City of Fort Wayne be increased no more than 25%.

And I urge that I&M act at once to change its priorities from expansion to conservation, becoming an aggressive leader in the effort to teach us all how to save money by saving energy.
